**To: ALL DISTRICT SUPERVISORS

1. To ensure the minimal transmission of COVID-19 among our learners and teachers, the school has to establish mechanisms to maximize, in particular, the space and ventilation of the classroom.
2. It is recommended that for the non-air-conditioned classrooms, the doors and windows be opened.
3. For the air-conditioned classrooms, the use of the High-Efficiency Particulate Air (HEPA) filtration air purifier is recommended to clean recirculated air, provided that the unit is adequate for the size of the classroom in which it is installed.
4. Wide dissemination and compliance with this memorandum are desired.
